C. W. Barber, Grant Craig, O. Edwards, Joe Joyce and John McLean were Calgary visitors during the week.

Charlie Cowell and wife were called to Calgary on account of the serious illness of their son Frankie who is now reported out of danger.

Mr and Mrs. Russell Payne wish to thank the Ladies Club and friends for the beautiful flowers and kind remembrance during Mrs. Payne's recent illness.

There is going to be less of road work to do in this district before there can be much traffic over them as there is a lot of the grades covered with water.

Some of our young friends went rabbit hunting, but never saw any rabbits. They must have seen so many that they shot at the wrong ones.

Correction in Formula For Gopher Poison

It is corrected that in the formula for gopher poison published in the last issue of the press bulletin there was an error. Instead of 1 oz. strychnine, it should have read 1 oz. strychnine sulphate. If strychnine is used, owing to comparative insolubility, poor results will be obtained, whereas strychnine sulphate is readily soluble.

There's An OilPull For Every Size Farm

WITH four sizes—from the small 12-20 up to the giant 30-60—the OilPull line of tractors conform to the needs of every farm and power job.

No matter whether you want a tractor to plow big acreages of tough wild sod, operate a small size feed grinder, or any job in between, there is an OilPull of the correct size.

The OilPull line includes the 12-20, 16-30, 20-40 and 30-60 H. P.—all standard in design. For over eleven years OilPulls have proved their unequalled economy of operation—but, as if this were not enough, every OilPull owner is given a written guarantee that it will successfully operate on all grades of kerosene under all conditions and at all loads up to its full rated brake horsepower.

Choose the OilPull that fits your farm—they'll all deliver the most in economy and stay "on the job".

Soaked \$25 if Brands Are Not All Described

New Inspection Act Places All Onus
on Shipper of the Live Stock

"Any shipper failing to furnish to a stock inspector a correct list of brands on cattle being shipped by him, shall be liable to a penalty of \$25 for each animal wrongfully described."

Just read that over again Mr. Cattle Buyer, and let it sink into your head that if there are four animals in a car which have not been fully described in your list that you are liable to be marked one hundred shadlocks.

It also brings special attention to the carelessness which is exercised by some of the stock inspectors at county points, who in some instances have been known to simply put their O.K. on a list of brands which is given them by the shipper, or the shipper without even having any actual knowledge of the brands on the stock, or after a superficial examination.

The shipment reaches the Calgary or Edmonton yards where there is thorough inspection and the unmarked brand of the original owner is found on the cattle and there is a delay in the handling of the stock until the matter is adjusted. There was a load of cattle in Calgary yards recently on which there was a feed bill of nearly five hundred dollars claimed up to date all the brands were traced back. Also in this case there was absolutely nothing wrong, as it was found that the original owners had sold the cattle but there had been a lack of dealing after the sales. —Market Examiner

Has Done Well in the Strathmore District

A Hollander's Testimony

"I like Western Canada much better
—"

John Holland, a native of Lancashire, who is farming near Strathmore, Alberta, "both for the farmers and for the laborer. We don't need in work as hard as in Holland and are making more money. I came from (Holland) near Dordrecht, arriving in Canada April 2nd, 1911, with the idea of getting a farm and started near Strathmore, Alberta.

"It is much better here than when I came from. Once we were pretty good this year (1919), I can't complain, but crops could be better on account of lack of rain. I like farming here very much.

"We have a good school here and are living at a distance of five miles from the church. Roads are good here also.

"I have now 26 head of horses, 24 head of cattle and five hogs. I began

with a small capital on 80 acres of land and have now 100 acres. Young men have a fine opportunity of making money here.

"This is a good country for young people who like to work. I know this by experience, because hard working save me prosperity."

—Western Canada Bulletin.

News From Standard

Goe Dyball expects in a few days to open a cafeteria style restaurant, for cream parlor and confectionery in the building recently purchased by Nelson Bros. The exterior and interior of the premises will be renovated and painted and Mr. Dyball expects to have an attractive place of business. Watch for his announcement in next week's issue.

Peter Julius Christian Dam,
Aged 71 Years.

The death occurred on Saturday, April 12th of Mr. Dam, Sr., one of the pioneers of the Standard community. The deceased had suffered much from ailments of late years and he died rather suddenly from this disease.

Mr. Dam was born, Dec. 21st 1848 at Egerby, Holbaek County, Zealand, Denmark. He followed the trade of settler and carter. In 1875 he married Constance Schanz, who died in 1892. Mr. and Mrs. Dam were the parents of ten children, five of whom survive. Mr. Dam, in the fall of 1902 Mr. Dam came out from Denmark to America settling near Cedar Falls, Iowa, in which locality his sons had preceded him. In 1911 he came to Standard with his daughter Mrs. G. Mygaard. He is survived by his sons Emil and Christian, by his daughter Mrs. Mygaard and two daughters who are living in Iowa. Mr. Dam's life in this community was quiet and retired, and those who knew him respected him and mourn his death.

The funeral was held on Wednesday afternoon, April 21, services being held both at the home and the church at Standard. Rev. J. K. Jensen conducting the services. There were a number of handsome floral offerings.

William Brandes

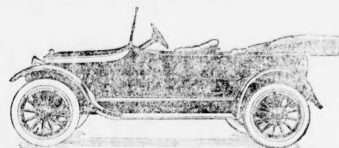

The death of Mr. Wm. Brandes occurred on April 14th at his home at Standard, though he resided in the Standard district and had been ill for some time.

The deceased had been employed for two seasons by N. W. Thompson on his farm near Standard. He started his home at Cedar Falls, Iowa, during the winter, and returned in the month of March. While staying at the home of C. Christensen he complained of not feeling well, and went to Des Moines for treatment in the hospital. He died a few days later subsequent to an operation for appendicitis. The remains were taken to his home at Cedar Falls, Iowa where interment took place. The deceased was about twenty-one years of age and popular with the young people of the community, his death causing the general feeling and expression of sincere regret.

"A Live Wire" Solves the Problem of Dipping ing Town Cows

At the conference between the cattle men and the county inspectors in Calgary, April 23rd, 1920, the question arose as to how to make sure that all of the town and village cows in the range area would be brought to the vat. It was reported that the Mayor of Taber had hit on the proper method for insuring that this would be done.

Taber is a mining town and many of the miners own a family cow. To require each to bring his cow to the vat on the day of dipping would in the aggregate mean a heavy loss in wages to them and disorganize the work at the mines as well. In order to avoid this the mayor decided to take the matter in hand himself and appoint a staff whose duty it would be to make a list of all the cows kept in Taber and on the day of dipping collect them and drive them to the vat at an hour when they would not get mixed with range cattle, and after they had been dipped return them to their owners. If this work is carefully done we have every reason to think it will be, it will solve the question that threatened to be a very difficult one and to the Mayor of Taber much credit is due for the idea. It shows him to be a "Live Wire" and a man who "sees beyond the end of his nose" as well. He evidently understands that to lift the blanket quarantining off the Province will benefit not only the cattlemen of this part of the Province but the business men as well.

The Percy Case

The Editor,
Strathmore Standard.

I am glad to see by last week's paper that someone besides myself feels the unfairness of the young girl, Joyce Percy, being sent to jail for fifteen months on the charge of uttering a worthless cheque when the two men McTeer and Dollingham were let off on suspended sentence, not for uttering worthless cheques, but for the crime of beating and ill-treating a man who for all they knew or seemingly cared might have died from the injuries received at their hands. Joyce Percy did not criminally assault a man, she was in no manner violent, she is one of the (supposedly) weaker sex, yet she is sent to prison for her offence against the law, and McTeer and Dollingham are at large today.

It is a case again, of one law for man and another for woman, and it shows very plainly that it is time for the women of Canada to awaken and demand equal justice. Of course we all know that two wrongs do not make a right and if the girl was guilty she should be punished, but I have heard many comments on the severity of her sentence as compared with that of the two men I have mentioned. A little justice tempered with mercy might have induced the girl to live a better life, the case as it is hoped it will induce McTeer and Dollingham. I see in the Herald that Mr. Cameron states that "Joyce Percy's case is to be appealed and remembering that she may be one of the mothers of the future, I for one sincerely hope she too may be given a chance and be let off on suspended sentence."

I congratulate your two correspondents and thank you in anticipation. I remain
Yours faithfully,
Mrs. EDITH KEER

CRAIGANTLER

H. B. Grant shipped a carload of seed to McKenzie Co. Calgary, last week. It was a fine sample and settled a good price.

Mr. E. A. Leck who has been in the south east part of the Province, just a short visit to Mr. N. Hurler who has his land rented. While here he bought his seed wheat from Mr. Elder. He is an expert on seeds and thought the seed he got was A No. 1.

Carl Jule and Pete Beck and the Sorensen brothers were the first to start seeding in this district. They started on April 26th.

What's the use of worrying? Our old timer prophesies a bumper wheat crop this year.

Several attempts at plowing and disking were made by local farmers last week, but the land is still rather wet for satisfactory work.

The annual consignment of seed potatoes from Nauyas to McKenzie seed ware house was dispatched on Thursday.

Mr. F. C. Helme is the purchaser of Mr. Sam Lemo's farm. He has now taken possession, Mr. and Mrs. Watson assuming the place for him at present.

Boarded fans will be pleased to know that W. F. Brown, Strathmore's star pitcher last year, is going to be with the team again this year, and will be here about the middle of the month. Strathmore is assured of a first-class team in this year. An endeavor is being made to arrange a game for the 24th of May, which will be a public holiday. There ought to be a sports day on that day.

By the way, what has become of the Board of Trade? We have it that there does not seem to be any reason for such an untimely end, for the last meeting was attended by over fifty people, and they were all enthusiastic about holding another meeting in four weeks time. We hope to have something better to say about the Board next week.

One (Hank) Johnston, left for Lethbridge on Sunday, where he has secured a good position as tractor engineer.

Miss Gladie McIntyre, who has been here for some time on a visit to Mr. and Mrs. Tom Crawford, left here on Sunday.

Miss Madeline Martin was in Strathmore on a visit to her parents over the week-end.

Harold left placed in position this week a few gallon Hovver gasoline filling tank, of the most improved pattern, his former one having proved too small.
